1. I met with Messrs. Baird, [REDACTED] Office of Training, to discuss furniture and fixtures costing almost \$20,000 for [REDACTED] While it does not appear that the cost is excessive, Training does not have the money. I told them that I would approve of a recommendation to go ahead and obligate funds with the understanding that Training would try to absorb this and that the Comptroller would review the situation during the fourth quarter in order to determine where the funds should come from. However, I insisted that Matt Baird sign a memorandum addressed to me via the Comptroller.
